UKRAINIAN MATHEMATICAL JOURNAL
Volume 25, Numbers 1-6, 1973
(A translation of Ukrainskii Matematicheskii Zhurnal)

Volume 25, Number 1 January-February, 1973

	Engl.	Russ.
Approximation of Differentiable Functions by Rogosinski Polynomials – V. T. Gavrilyuk and A. I. Stepanets	1	3
On the Generalized Solvability of the Tricomi Problem – V. P. Didenko	10	14
On the Rate of Convergence of Orthogonal Series – V. I. Kolyada	19	25
On Some Modifications of Chaplygin's Method for Equations in Partially Ordered Spaces – N. S. Kurpel' and V. I. Grechko	30	39
On Some Boundary Value Problems in the Class of y^k-Analytic Functions – N. A. Pakhareva and M. M. Belova	37	47
Asymptotic Decomposition of the Distribution of the Number of Recurrences of a Random Walk in the Initial State – N. P. Slobodenyuk	46	58
On the Stability of the Null Solution of Systems of Partial Differential Equations – N. P. Sokolov	53	66
Analyticity of Functions of a Complex Variable – M. M. Tar	59	73
On a Constructive Characterization of Functions from the Classes $D^r H^{\omega_2(t)}$ on Closed Sets with a Piecewise Smooth Boundary – I. A. Shevchuk	66	81
BRIEF COMMUNICATIONS		
The Continuation of Interior Functions in the Polydisc – P. Z. Agranovich and L. I. Ronkin	74	91
Generalization of a Kernel of a Graph – L. P. Varvak	78	95
The Solvability of Elliptic Problems in Limiting Regions – L. A. Ivanov	82	99
On Best Approximation in Normed Modules – A. N. Kochubei	86	103
Construction of a Uniformly Convergent Sequence of Algebraic Polynomials by a Generalized Method of Least Squares for a Class of Continuous Functions – V. Yu. Kudrinskii and V. S. Ostapchuk	89	106
A Generalized Problem of Carleman – V. I. Makogon	93	111
Approximation by Polyhedral Functions in a Hausdorff Metric – V. T. Martynyuk and V. F. Storchai	98	115
On a Method for Solving a System of Nonlinear Volterra Integrodifferential Equations – M. I. Rozovskii and F. B. Badalov	103	121
Equation of the Convolution Type with Coefficient $(\lambda - e^{imx})$ in the Space of Generalized Functions – B. I. Rukhlin	106	123
Invariant Sets of Systems with Instantaneous Changes in Standard Form – A. M. Samoilenko and N. A. Perestyuk	111	129
The General Form of a Linear Functional and a Criterion for a Best Approximation Polynomial in a Space with a Mixed Integral Metric – G. S. Smirnov	116	134

Volume 25, Number 2 March-April, 1973

The Influence of Boundary conditions and the Deformation of a Domain on the Spectrum of Operators Generated by Boundary Value Problems with a Spectral Parameter in the Boundary Conditions on a Part of the Boundary – V. V. Barkovskii	121	147

Exact Upper Bounds of the Deviations of Bernstein Sums from Functions of Holder Classes – V. T. Gavrilyuk and A. I. Stepanets 129 158
A Class of Processes with Independent Increments on a Finite Markov Chain – D. V. Gusek 139 170
Method of Expanding Unity in Regions with Piecewise Smooth Boundaries as Sums of Algebraic Polynomials of Two Variables having Certain Properties of a Kernel – V. K. Dzyadyk and V. N. Konovalov 146 179
Almost Periodic and N-Periodic Solutions of a Difference Equation – D. B. Dimitrov .. 156 193
On Complexes of Projective Rotation and Complexes with a Quadruple Inflection Center on Each Ray in Three-Dimensional Projective Space – N. I. Kovantsov and V. G. Ponomarev 161 200
Asymptotic Behavior of Variance of Best Unbiased Linear Estimate of Unknown Mean of Stationary Random Process Obtained by Uniform Division of Observation Interval – Yu. V. Kuk and Yu. I. Petunin 172 214
The Region of Values of an Elliptic Polynomial – A. I. Markovskii 183 228
Locally Compact Hypersolvable Groups – Z. I. Moskalenko 189 235
Fix-Points of Meromorphic Functions – G. S. Prokopovich 198 248

BRIEF COMMUNICATIONS

Applicability of the Laplace Transform to the Investigation of Linear Stochastic Systems – V. M. Alekseev..... 209 261
Motion about the Center of Mass of a Free Rigid Body Stabilized by Rotation about a Nonprincipal Axis of Inertia – V. A. Grobov and D. V. Lebedev 212 264
Approximation in the Mean of Functions of Class $W^rH[\omega]_L$ by Fourier Series – A. G. Demchenko 215 267
Theorems on Isomorphisms for Elliptic Boundary Value Problems with Boundary Conditions which are Not Normal – Ya. V. Kostarchuk and Ya. A. Roitberg 222 277

Volume 25, Number 3 May-June, 1973

Best Quadrature Formulas for a Class of Differentiable Periodic Functions – T. N. Busarova..... 227 291
Towards a Theory of Two-Dimensional Integral Equations with Partial Integrals – V. A. Kakichev and N. V. Kovalenko 236 302
Bose–Einstein and Fermi–Dirac Systems and Reduced Density Matrices with Nonzero Boundary Conditions – K. S. Matviichuk 246 313
Functions of Airy and Fresnel Type as Limiting Laws for Convolutions of Functions of Bounded Variation – Yu. M. Orban and Yu. P. Studnev 255 323

BRIEF COMMUNICATIONS

On a Nonstationary Problem with a Free Surface – B. V. Bazalii..... 263 332
Integration of Some Ordinary Differential Equations on the Basis of the Approximation of Continuous Functions by Linear Functions – I. I. Bezvershenko..... 267 336
Convex Approximation of a Controlled Process and a Method of Synthesizing Generalized Optimal Regimes – I. V. Beiko and M. F. Beiko 274 343
Uniqueness of the Solution of a Nonlinear Problem – V. A. Bogatyrev..... 277 347
On n-Dimensional Commutative Formal Groups over the Ring of Integers of a Field of p-Adic Numbers – N. M. Glazunov..... 282 352
On the Stability of the Solutions of Second Order Differential Equations with Periodic Coefficients – F. M. Dannan 285 355
Application of the Method of Averaging to Investigate Essentially Nonlinear Systems Excited by Instantaneous Forces – B. I. Dzyra..... 292 362
Approximation of Functions of Two Variables by Positive Linear Operators in the L_p Metric – Z. V. Zaritskaya 298 367

Theorems on Isomorphisms for Elliptic Systems with Boundary Conditions which are not Normal – I. A. Kovalenko 303 373
Example of a Locally Commutative Operator Field – V. D. Koshmanenko 308 378
The Integration of a Nonlinear Mixed Boundary Value Problem in Partial Derivatives – V. L. Kul'chitskii 311 382
On Operator and Integral Inequalities – N. S. Kurpel' and B. A. Shuvar 315 386
Solution and Stability of a System of Two Linear Homogeneous First Order Differential Equations with Variable Coefficients – G. A. Los' 319 390
The Distribution of Certain Functionals of Processes with Semiindependent Increments – T. I. Nasirova and A. V. Skorokhod 328 400
Boundary Value Problems for a Multiplicatively Generated Quasidifferential Operator – V. Ya. Sikiryavyi 334 406
On the Stability of Solutions of Linear Functional–Differential Equations with Random Perturbations of the Parameters – V. E. Slyusarchuk, E. F. Tsar'kov, and V. K. Yasinskii 338 409
Criteria for the Polynomials of Best Approximation in the Spaces $L_{p,1}$ and $L_{1,q}$ – G. S. Smirnov 344 415
Multiplicative Stochastic Integrals with Operator Coefficients – N. I. Teterina 348 419

CHRONICLES
The Role of Mathematics in Scientific and Technological Progress. Some Results of the Ukrainian Scientific Conference in Kiev, January 23-25, 1973 – I. G. Kozubovskaya and V. N. Shevelo 353 424

Volume 25, Number 4 July-August, 1973

On the Efficient Construction of Polynomials Which Realize Near-to-Best Approximation of the Functions e^x, sinx, etc. – V. K. Dzyadyk 359 435
The Factorization of a Matrix Binomial – P. S. Kazimirskii and M. N. Urbanovich 375 454
Linear Inequalities and Some of Their Applications – N. N. Krasovskii and I. I. Eremin 384 465
Green's Formula and the Hypothesis of Solvability for Nonlocal Elliptic Boundary Problems – Ya. A. Roitberg and Z. G. Sheftel' 396 479
Nonstationary Problem of Thermal Conductivity in a System of Diathermally Separated Bodies – N. R. Sidenko 406 492
Asymptotic Representation of Solutions of System of Linear Differential Equations with Slowly Varying Coefficients – N. I. Shkil' and V. K. Grigorenko 414 502

BRIEF COMMUNICATIONS
An Equivalence Condition for Gaussian Measures in Hilbert Space – G. P. Butsan 424 514
Generalization of the Gronwall – Bellman Lemma – K. G. Valeev 428 518
On Torsions in Modules – E. L. Gorbachuk 431 521
On the Stability of a System of Two Linear Differential Equations with Periodic Coefficients – F. M. Dannan 436 528
On the Convergence of Interpolated Rational Functions – T. V. Didkovskaya 441 532
Local Increase of Smoothness of Generalized Solutions of Elliptic Boundary Problems with Nonnormal Boundary Conditions – Yu. V. Kostarchuk 445 536
On the Symbol of a Singular Integral Operator with Carlemann Shift – V. G. Kravchenko and G. S. Litvinchuk 449 541
Nonstationary Iterative Solution of Nonlinear Operator Equations – T. S. Kurchenko and N. A. Ksendz 453 545
On the Reduction Method for Non-Linear Systems – S. P. Lavrenyuk and E. N. Parasyuk 458 550

The Solution of Nonlinear Differential Equations of Higher Order by the Method of Power Series and an Estimate of Its Error — U. S. Sadykov and I. D. Dobra 461 554
On Conditions of the Existence of Closed Solutions of a Linear Inhomogeneous Differential Equation with Polynomial Coefficients — Yu. I. Sikorskii and N. I. Tereshchenko . 465 558
On an Asymptotic Solution for a Linear System of Hyperbolic Type with Retarded Arguments — N. A. Sotnichenko and S. F. Feshchenko. 470 563

CHRONICLES
Defense of Dissertations before the Academic Council of the Institute of Mathematics of the Academy of Sciences of the Ukrainian SSR. 475 569

Volume 25, Number 5 September-October, 1973

On the Averaging Principle for Functional-Differential Equations of Neutral Type – R. R. Akhmerov. 481 579
On a Functional Equation with Two-Index Variables – G. G. Mikhailichenko 490 589
The Approximation of Certain Classes of Differentiable Periodic Functions of Two Variables by Fourier Sums – A. I. Stepanets. 498 599
Behavior of Solutions of Differential-Functional Equations of Neutral Type in Neighborhoods of Elementary Stationary Points – V. I. Fodchuk and A. Kholmatov. 507 610
On the Application of the Principle of Averaging for the Solution of Some Parabolic Boundary Value Problems – S. D. Éidel'man and Z. F. Sirchenko 516 621

BRIEF COMMUNICATIONS
On the Transition Probabilities of a Branching Process with Stops – R. V. Boiko. 525 632
Approximation of Continuous Periodic Functions of One or Two Variables by Rogozinski Polynomials of Interpolation Type – V. T. Gavrilyuk. 530 637
Contruction of Coordinate Sequences in Problems of Multilayer Shell Theory A. G. Glushko, O. N. Litvin, and A. N. Podgornyi 538 648
Behavior of Solutions of Inhomogeneous Differential Equations with a Turning Point and Small Parameter for the Derivative – S. Yu. Dzyadyk 545 657
On Robust Estimates of the Mean for Gaussian Distributions in Hilbert Space – I. Sh. Ibramkhalilov 550 662
On Free Groups of a Manifold Defined by the Relation $[x, y; u, v; z] = 1$ – I. D. Ivanyuta 555 668
Remarks on the Theory of Rings of Finitely Generated Principal Right Ideals – P. S. Kazimirskii and M. N. Drogomyzhskaya 558 671
Equations of Motion of a Heavy Solid about a Fixed Point – V. N. Koshlyakov 563 677
Solution of a Boundary-Value Problem of Filtration Theory – V. I. Lavrik. 567 681
Spectrum of the Ratio of Two Toeplitz Operators – V. S. Rodionova. 572 687
The Characterization of Certain Classes of (H, G)-Spaces – V. A. Senderov 575 690
Bipositive Projection Operators in Partially Ordered Vector Spaces (Density and Extremal Properties) – V. S. Ten 577 693
On Averaging in Integrodifferential Equations with a Lag Depending on the Solution – L. G. Fedorenko 580 696
On the Construction of Finite Groups with Systems of Commutative Primary Subgroups – V. V. Tsybulenko 585 701
The Construction of Correct Cutting-Planes in the Solution of Partially Discrete Linear Programming Problems – Yu. Yu. Chervak 589 705
On the Oscillatoriness of the Solutions of the Equation $[r(t)y^{(n-1)}(t)]' + p(t)f(y(\tau(t))) = 0$ – V. N. Shevelo and N. V. Varekh 591 707

Volume 25, Number 6 November-December, 1973

Nuclear Spaces of Functions of Infinitely Many Variables – Yu. M. Berezanskii and Yu. S. Samoilenko. 599 723
Bilateral Bounded and Almost-Periodic Solutions of Certain Systems of Differential Equations with a Deviating Argument – D. A. Vzovskii. 610 738
Works on Gyroscope Theory in the Institute of Mathematics of the Academy of Sciences of the Ukrainian SSR – Yu. A. Mitropol'skii, V. N. Koshlyakov, O. F. Boichuk, V. N. Kalinovich, V. A. Storozhenko, and M. E. Temchenko 618 747
Isomorphism Theorems for Nonlocal Elliptic Boundary-Value Problems and Their Applications – Ya. A. Roitberg and Z. G. Sheftel'. 630 761
Abstract-Group Investigations and the Theory of Topological Groups – S. N. Chernikov, D. I. Zaitsev, and V. S. Charin 639 772
Self-Adjointness of the Beltrami–Laplace Operator on a Complete Paracompact Riemannian Manifold without Boundary – A. A. Chumak. 649 784

BRIEF COMMUNICATIONS

A Generalization of Metahamiltonian Groups – A. F. Barannik 656 792
On an Operator Equation in Hilbert Space – A. T. Zaplitnaya 660 796
General Elliptic Boundary Value Problems with Power Singularities on Their Right Sides – Yu. V. Kostarchuk. 662 798
Urysohn Operators in the Space of Homogeneous Harmonic Polynomials – V. G. Kocharovskii 667 804
On the Self-Adjointness and on the Nature of the Spectrum of Certain Classes of Abstract Differential Operators – A. N. Kochubei 673 811
On a Method of Solving a Nonhomogeneous Boundary Value Problem with Continuously Discrete Parameters under a Continuously Discrete Perturbation – K. Ya. Kukhta. . 677 815
On a Generalized System of Equations of Heat and Mass Transfer – M. P. Lenyuk and V. V. Fedoruk 681 819
Continuous Dependence of the Solution of an Infinite-Dimensional System of Integrodifferential Equations (which are Unsolved with Respect to the Derivative) on a Parameter, and the Averaging Method – T. V. Melikidze. 685 823
The Domains of Values of Two Functionals Defined for Caratheodory C-Functions – A. S. Nosenko. 689 827
A Boundary Value Problem for Differential Equations with a Retarded Argument – Z. B. Seidov. 692 830
Exact Bounds for Norms of Differentiable Periodic Functions in the L_2 Metric – V. F. Storchai 696 835
Bipositive Projectors in a Partially Ordered Vector Space ((c)-Density in a K-Lineal) – V. S. Ten. 702 841
On "Reverse" Methods of Integrating Systems of Ordinary Linear Differential Equations – A. I. Tkachenko 704 843
Biprimary Minimal Nonsupersoluble Groups – E. I. Shatilo. 708 847
Approximation on Analytic Functions by Poisson Polynomials – A. I. Shvai 710 848
On Infinite M-Groups – V. I. Yurchenko. 714 853
